

FAST FASHION

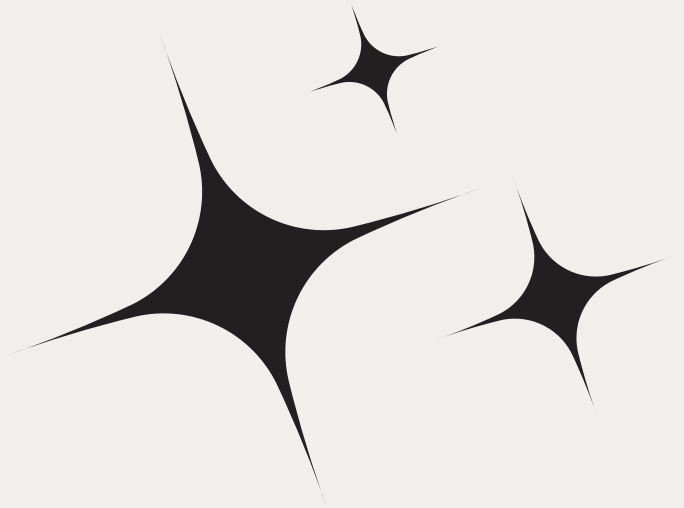

In your country

1. What are the most popular fast fashion brands ?
2. How many tons of clothes are thrown away per year ?
3. What are the second-hand systems put in place ?
4. What are the repercussions of fast fashion on the environment ?

5. In your opinion, what is the percentage of sustainable fashion and fast fashion stores ?
6. Have you noticed a change in this rate in recent years ?
7. In the future, how do you think the consumption of fast fashion will evolve ?

And you ?

8. Are you often approached by fast-fashion advertising ? For which brands and in what form ?
9. What makes you buy fast fashion ?
10. How, in your opinion, could we combine fashion and sustainable development ?

11. What are the solutions that could reduce the consumption of fast fashion ?
12. In your class, what is the average frequency of clothing purchases ? You can do a survey to specify your figures
